Professional Summary

Enthusiastic and results-driven Frontend Developer with a robust 3-year track record in designing and building interactive user interfaces. Proficient in leveraging cutting-edge technologies, including React, JavaScript, and associated frameworks, to develop visually appealing and highly functional admin panels, dashboards, and data-driven web applications. My expertise lies in creating feature- rich UIs that seamlessly blend responsiveness, optimal performance, and an exceptional user experience. Passionate about staying updated with the latest frontend trends and committed to delivering scalable and maintainable code.

Professional Experience

Saman ITG | Frontend Developer | Tehran, IR   May 2022 – Present

As a Frontend Developer at Saman ITG, I played a key role in developing and maintaining a sophisticated GRC (Governance, Risk and Compliance) platform. Working in an Agile environment, I collaborated closely with cross-functional teams to deliver high-quality, user-centric features that enhanced the platform's functionality and user experience.
Key Achievements:

- Developed +15 dashboard screens and +10 complex input forms for a GRC (Governance, Risk and Compliance) platform using **React**, **TypeScript** and **Tailwind CSS**.
- Implemented form validations with **React Hook Form** for improved data accuracy from 80% to 100%.
- Optimized data loading performance by 15% using **RTK Query** for API calls and cache management.
- Integrated **Material-UI** components, maintaining a consistent design aesthetic and elevating user experience
- Collaborated with team of 5 developers to architect reusable React components.
- Implemented **responsive design** principles, ensuring seamless functionality across various devices and screen sizes.
- Participated in **code reviews** and pair programming sessions, contributing to improved code quality and knowledge sharing within the team.
- Collaborated with team of 5 developers to architect reusable React components.

Technical Skills

- HTML/CSS
- JavaScript (ES6+) / TypeScript
